Allowable Subject Matter

4. Claims 10-14 and 19-31 are allowed.

The following is an examiner's statement of reasons for allowance:

Examiner has carefully considered the independent claims 1, 19, and 26.

SigBox. OCX ActiveX Control for Point of Sale Terminals, Version 4.3 rev 2, October 29, 1999 (hereinafter "SigBox") teaches a signature capture terminal (see SigBox in page 26) comprising a signature capture area operative to receive a signature of a user (see "Signing Area" in SigBox in page 26) and an audio generator operative to produce audio feedback to the user in response to receipt of the signature (see "SoundBell Method in page 75, "SoundSetFrequency Method" and "SoundTone Method in page 76). However, SigBox fails to teach that the audio feedback produced by the audio generator of the terminal is correlated to graphic input (i.e. form) of the received

signature. This limitation, in specific combinations as recited in the independent claims 1, 19, and 26, defines patentability of the claims over SigBox.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
